Beautiful, Soft, Fluffy
Hair An Aid To Beauty

Who does not love a head of pretty hair? Some women think it is a gift of nature and envy their more fortunate sisters. If your hair is not fluffy, soft and lustrous; is falling out, streaked, faded, brittle, or full of dandruff and if the scalp itches, do not think it must always be that way, for pretty hair is only a matter of care and proper nourishment of the hair roots. Hair is something like a plant—if neglected it soon withers and dies, while with a little attention it keeps fresh and beautiful.

Parisian Sage is a scientific preparation that supplies just the elements needed to invigorate the hair roots and stimulate the hair to grow long, thick, fluffy, soft and lustrous. It removes dandruff with one application and quickly stops itching head and falling hair.

F. D. Pierce or any druggist can supply you with Parisian Sage—it is inexpensive. You cannot be disappointed with this delightful and helpful hair tonic for the first few days' use will give the hair the beauty and charm of youth.

Sold and guaranteed in Orleans by F. J. Kinney.

Correct Creations in Women's Neckwear

Neckwear plays a very important part in the Fall styles. This season Dame Fashion has prescribed proper creations for all occasions and to deviate from the fixed ideas renders one costume very near as much out of style as if the wrong hat was chosen. Our women's neckwear section will prove a mine of style hints to all who come. There is not a desirable piece of neckwear made for this season that we do not show, from the very inexpensive to the exclusive effects.

May Abolish Port.

The following appears in the Burlington Daily News:

"During the Republican state convention a citizen who is connected with the customs house at Newport shed some new light upon the political contest which is waging for the collectorship of that port, where C. S. Emery of Chelsea is still holding the fort, many months overdue in a Democratic administration, says the Montpelier Argus.

"According to this gentleman there is a prospect that the port at Newport will be abolished as a separate port and combined with either Burlington or Portland.

"A consolidation would probably not affect the port itself any more than to do away with the salaried office of collector and a few others who are directly connected with this position, but in the main the force would be retained, making reports to Burlington or Portland.

"If the port is retained it is argued, that it should have jurisdiction down the line of the railroad through the Connecticut river valley. At the present time its jurisdiction is confined to the northern tier of Vermont and New Hampshire and seizures made down around Wells River are returnable at Portland.

"The fact that the New Hampshire port has been eliminated also makes politicians of the Granite State active to appoint a New Hampshire man to the post which likewise complicates the situation and does not make the Vermont candidates happy. Senator Hollis would in that case have considerable to say about the appointment.

"New Hampshire feels that it has an interest in the port from the fact that some counties in the northern part of the state are in this district. For that reason there is a very great possibility that the port may pass through the process of absorption."
